To Horticultural Societies.

We have for a number of years been supplying Horticultural Societies with stock at special prices. Will be pleased to have enquiries from Secretaries.

Visitors.

The best time to see the Pacenies in bloom is generally from 10-20th of June, some seasons a little earlier. Gladioli during the months of August and September. (WEEK DAYS ONLY.)

Order Early.

Please remember, that in our line of business the commercial end of it has to be done for the most part, during a few weeks in Spring, and it has to be done by our regular staff, as we cannot get experienced hands to work for a short time.

If we get orders early, we can get them shipped in proper season. If many of them come in late, this is almost impossible.

We are increasing our stock of perennials and expect to have a full list for the fall trade.
